

## NOT A PARTICLE OF DANDRUFF OR A FALLING HAIR

Save your hair! Double its beauty in just a few moments.

25-cent "Danderine" makes hair thick, glossy, wavy and beautiful.

Within ten minutes after an application of Danderine you cannot find a single trace of dandruff or falling hair. Your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—year by year new hair—growing all over the scalp.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

A little Danderine immediately doubles the growth of hair. No difference how dull, faded, brittle and searage, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance, an incomparable lustre, softness and luxuriance.

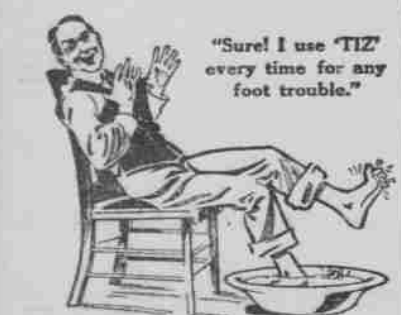

Get a 25-cent bottle of Knowlton's Danderine from any drug store, or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that all you surely can have beautiful hair and lots of it if you will just try a little Danderine.—Advertisement.

## Allen's Foot-Ease for the Troops.

Many war zone hospitals have ordered Allen's Foot-Ease, the little white powder, for use among the troops. Shaken into the shoes or used in the foot-bath, Allen's Foot-Ease gives rest and comfort to the weary soldier from the shoe, and prevents the feet getting tired or foot-sore. Drug and Department Stores everywhere sell it. Do not accept any substitute.—Advertisement.

## "TIZ"—A JOY TO SORE, TIRED FEET

Use "Tiz" for aching, burning, puffed-up feet and corns or callouses.

Good-bye, sore feet, burning feet, swollen feet, tender feet, tired feet. Good-bye, corns, callouses, bunions and raw spots. No more aching, burning, no more limping, with pain or drawing up your face in agony. "Tiz" is magical, acts right off. "Tiz" draws out all the poisonous exudations which puff up the feet. Use "Tiz" and wear smaller shoes. Use "Tiz" and forget your foot misery. Ah! how comfortable your feet feel.

Get a 25-cent box of "Tiz" now at any drugstore or department store. Don't suffer. Have good feet, glad feet, feet that never swell, never hurt, never get tired. A year's foot comfort guaranteed or money refunded.—Advertisement.

## Combing Won't Rid Hair Of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. Do this tonight, and by morning, most if not all, of your dandruff will be gone, and three or four more applications will completely remove it, and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustre, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.—Advertisement.

## AN OLD RECIPE TODARKENHAIR

Common garden Sage and Sulphur makes streaked, faded or gray hair dark and youthful at once.

Almost everyone knows that Sage Tea and Sulphur properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old time recipe improved by the addition of other ingredients for about 50 cents. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.—Advertisement.

## IT'S MYSTIC JUICE

Tries Out Gasoline "Sub"; Says It Works Fine.

Runs Flivver Four Miles on Hydrant Water.

## EXPERIMENTED FOR YEARS

Inventor Is German Chemist of Farmingdale, L. I.

Pinch of Wonderful Powder Makes Engine Pop-Pop.

New York, April 18.—Following his assertion that he has discovered a chemical which gives water the "kick" of gasoline when used for power, Dr. Louis Enrichi has given demonstrations of the ability of his 1½ cents per gallon "juice" to push an automobile.

So exultant the flivver, laid up since gasoline outstripped champagne in price, fell up the tank with water from the faucet, drop in one of old Doctor Enrichi's mysterious powders and turning the crank. Then drive up and down before the nearest fuel station, making faces at the manager.

This is not the beginning of a motorist's delirium, induced by the old spring food and the latest quotation on gasoline. It is what Louis Enrichi, a German chemist of Farmingdale, L. I., says is going to happen almost immediately—just as soon as his plans are perfected. His compound, added to water, makes, he insists, a liquid as stable as gasoline, but more highly explosive.

For years the chemist has been working with the dream in his mind. Today he believes his experiments have at last achieved success, and that he has made a discovery which will give to the world its greatest revolution in transportation.

Little was known about the man until Dr. William B. Gibson of Huntington, L. I., who has been interested in his work, brought a New York chemist to Farmingdale to watch a test of the Enrichi invention. An ordinary runabout was used; the gas tank was emptied and untested. The engine was examined by a garage man and pronounced unaltered in any way. Then the tank was filled with water, and the car was driven. The engine was dissolved in it. An electrode connected with two dry batteries was then placed in the solution and the car was cranked up.

Pops Right Lustily. The engine popped lustily and the car moved off. It was run four miles before the water was completed. "I have run my car for the last three months," Mr. Enrichi says, "and in that time I have not bought a drop of gasoline. I have found how to do what chemists have been dreaming of for years. I have discovered a formula which will enable me to get hydrogen gas simply and easily from water and explode it without any danger of difficulty."

"At present I would rather say nothing about the 'kick' of this water," Dr. Enrichi said over the telephone last night. "It sounds so Utopian I can hardly believe it to be true. I am almost convinced that this is the greatest and most remarkable discovery of the century. It seems as though there must be a 'tiger in the woodpile' somewhere. Enrichi is sure he is honestly mistaken. There is no sign of trickery about his work."

## HOT UNDER COLLAR

President's Note to Germany Most Vigorous Ever Drafted by Him.

Washington, April 18.—The American government's communication to Germany designed as the last word of this government in the submarine controversy was being put into diplomatic code today for immediate transmission to Berlin.

The document is said to be the most vigorous diplomatic paper President Wilson and Secretary Lansing ever have drafted. It covers the activities of German submarines since the Lusitania affair and is intended to force the question of a speedy settlement of the submarine issue by making plain that only an immediate change in Berlin's policy can prevent a rupture in the friendly relations between the two countries.

## NOTED ARTIST, SUICIDE

Honored by European Royalty, Aged Cavaliero Ends Life in Studio.

Chicago, April 18.—Despondency is believed to have been the cause of the self destruction today, in a shabby studio on the North side, of Francis D. Cavallero, a painter of note. Cavallero is 60 years old; he is reputed to have been honored by European royalty and his paintings adorn many churches and theaters, principally in Europe.

## BRAZIL LEASES SHIPS

Makes Deal to Use German Interned Ships for Coast Service.

Rio Janeiro, April 18.—It is officially announced that Germany has authorized shipping companies to lease to Brazil, for coast service and for the length of the war only, three steamships which are interned at Brazilian ports under condition that Brazil obtain from the entente allies a guarantee that these ships will not be captured or attacked.

## SARGOL THE FLESH BUILDER

Used successfully for eight years by thin men and women who want to put on flesh and increase weight. Eat with your meals. Pleasant, harmless and inexpensive. Sold in drug stores everywhere.—Advertisement.

## 25 Years Ago in Topeka

From the columns of THE STATE JOURNAL

April 18, 1901.

Hon. Martin Mohler, secretary of the state board of agriculture is attending the commercial congress in Kansas City.

Mr. Edwin Knowles, cashier of the Central National bank, who has been ill for some time, is slowly regaining his health.

Chas. R. Apperson, son of W. M. Apperson, lately appointed warden of Mead, has accepted a position as traveling agent and correspondent for the Kansas Farmer.

It is difficult to draw the line at what shall be persons attending the theater. Minstrels, poppers and gum have long been permitted. Oranges are the latest. The auditor at the Grand gets nearly half a peck of peelings from under the seats sometimes.

Speaking of cities: by their works ye shall know them. The water works in it can't be excelled by that of any western city.

The Festival chorus held its regular weekly rehearsal at the library last night. "The Hallelujah," "The Heavenly Telling," "The Star Spangled Banner" and "In the Desert from the Crusaders" were the choruses which were worked upon.

The Rev. Mr. Platt of Dover, is visiting in Topeka. He is a member of the Washington college.

AGGIE TEACHER TO CHICAGO.

Professor Holton Will Teach Rural Subjects During the Summer.

Manhattan, Kan., April 18.—Edwin L. Holton, professor of education in the Kansas State Agricultural college, will teach rural education and rural sociology in the University of Chicago during the summer quarter. His work will be in the school of education and the school of arts and sciences. The University of Chicago secures each summer a number of men of special qualifications to offer courses.

Professor Holton will spend the coming year in graduate study in Columbia university, from which he expects to receive the degree in education in the summer of 1917. A leave of absence has just been granted to him for this purpose. Professor Holton is a graduate of Indiana university and has already taken graduate work in Columbia university. He has been head of the department of education and director of the summer school since 1910. He has built up both to a high degree of efficiency and is recognized as a leading authority on vocational education.

GIRLS ADOPT A UNIFORM.

McPherson High School Students Will All Wear "Middies."

McPherson, Kan., April 18.—Girls of the McPherson high school by a vote have decided that they will have a uniform dress system in vogue at the beginning of the next school year. The matter was put to them by the principal of the high school, who allowed them a week to think over and discuss the matter. The girls were almost unanimous in favor of the plan.

The girls decided that they would wear white colored middies with dark skirts. Each class will wear different colored ties, these to be the class colors. During the cold weather they will wear Peter Thompson sweaters. The move is one to keep high school girls from overdressing and to bring about a more democratic spirit in dress.

## EXTEND SCHOOL COURSE.

Montezuma Students May Have Four Years, Board Decides.

Montezuma, Kan., April 18.—Montezuma will have a full four-year high school course next year. This was the action taken at the annual school meeting held here. \$5,500 was voted for school purposes and the board was authorized to establish the full high school course and employ the necessary teachers to carry on the work.

Fred Howard was re-elected to the position of director by acclamation. The other members of the board are A. P. Nelson and B. P. Tabb. Six teachers will be employed in the district next year, five in the city school and one in the rural school.

## SUMMER TO BUILD SCHOOL.

Sinking Fund Established to Pay for \$2,500 Building.

Atchison, Kan., April 18.—Summer will have a new \$2,500 brick school building. It was decided at the annual school meeting. It will be modern in every respect. A sinking fund was established at the meeting and carried almost unanimously, which will divide \$1,200 a year to defray the cost of the structure.

Miss Elizabeth Harris will be re-elected principal of the school, although no action was taken at the meeting. She is a candidate, however, and has given excellent satisfaction, patrons of the school say.

## BOUGHT AN EASTERN BANK.

E. G. Munsell, Herington Banker, Forms New Business Affiliation.

Herington, Kan., April 18.—E. G. Munsell, vice president of the First National bank, together with his brother-in-law, D. S. Isenberg, has purchased the Commercial State bank, Windsor, Ill. Mr. Munsell and his associates will leave Herington about the first day of May. Mr. Munsell has been associated with the First National bank of Herington for many years.

Rebekah School at Salina.

Salina, Kan., April 18.—The fifth annual convention of the Rebekah school of instruction of Beehive district No. 25, embracing Salina, McPherson, Lindborg, Culver, Tescott, Brookville, Lincoln and Marquette, was held at I. O. O. F. hall with about seventy-five visiting members present. Mrs. Grace G. Kemper, Topeka, president of the Rebekah state assembly, conducted the school.

## Auto Speed Ordinance Invalid.

St. Louis, April 18.—The St. Louis ordinance fixing the speed of automobiles in the city limits at eight and ten miles an hour was declared invalid in the circuit court today. The court decision was based on a state statute fixing the speed limit at 25 miles an hour.

## BRYAN IN SCRAP

Wets and Drys in Clash Today in Nebraska.

Grape Juice Champion After Scalp of "Brewery Control."

## BROTHER CHARLEY CANDIDATE

Lincoln Mayor Running for Democrat Governor.

Five Republican Candidates for State Executive.

Lincoln, Neb., April 18.—The most spectacular fight in the Nebraska primary today is that for the Democratic nomination for governor. Mayor Charles W. Bryan of Lincoln, brother of William J. Bryan, is the dry candidate, while the wets have concentrated their vote on Keith Neville of North Platte, although W. F. Stoeker, of Omaha, also is in the campaign.

Former Secretary Bryan has been in the thick of the fight to rid the Democratic party in Nebraska of what he designates its "brewery control."

"I did not want this question to come up at this time when national issues are to engage our attention," said Mr. Bryan in his campaign.

"I preferred that it wait a year. But if a child is born at my house I take care of it. This question is here, and I intend to take care of it."

Wets Control Committee.

The wets, having control of the Democratic state committee, he said, declared it was best to let the issue rest, and then they quietly got busy and sought to nominate men so as to capture the nominations in both parties for governor and the legislature. Since they forced the issue, he said, he is content to fight it out.

Wets and drys are battling for control in the Republican and Democratic parties.

The selection of candidates friendly or opposed to the liquor interests over the prohibition amendment comes up this fall, the governor and legislators will decide its fate.

Henry Ford's Name There.

Little interest has been displayed in the presidential contest. The Republican presidential preference ballot are the names of Henry Ford, Henry D. Eastbrook, Albert B. Cummings and Robert G. Ross.

Nebraska has two favorite sons as candidates for the vice presidential nomination. They are Senator Elmer J. Burkett, Republican, and Governor John H. Morehead, Democrat. Both are expected to receive their party's endorsement in Nebraska.

On the Republican ticket there are five candidates for the gubernatorial nomination: two here, here, here, here, here. William Madgett of Hastings, and Samuel R. McKelvie of Lincoln, and two wets, Walter George of Omaha, and C. Miles of Hastings.

Contest for U. S. Senator.

For the nomination for United States senator, Senator Gilbert M. Hitchcock of Omaha, and Ignatius J. Dunne of Omaha, are contending for the Democratic nomination. Former Governor Chester H. Aldrich of Lincoln, and Judge John L. Kennedy of Omaha, are contending for the Republican nomination.

## NEWS TO SENATOR

William Lorimer Tells of Picturesque Career, at Bank Failure Trial.

Chicago, April 18.—The trial of William Lorimer, former president of the La Salle street trust, is being held in connection with the failure of the bank in 1914 was resumed today with the testimony of Mr. Lorimer's testimony on events leading up to the closing of the La Salle street institution.

Lorimer said on the witness stand that the antagonism of Chicago was largely responsible for his troubles at the La Salle street bank and in the United States senate, he said he had little to do with managing the bank as he was out of the city most of the time. He reviewed the story of his life from the time he was a newsboy and the main support of his mother up to the time he became the president of the bank, the head of several corporations and a member of the United States senate from which body he was ousted after an investigation into alleged illegal practices incident to his election.

Mr. Lorimer related the details of interviews with Charles G. Dawes, a banker and former controller of the currency, and other bankers in an effort to secure clearance. Aid was refused him, he said.

"All of this," Mr. Lorimer said, "and the fact that the newspapers contain the story almost exclusively following Mr. Forgan's telling Mr. Munday our bank would not be taken into the clearing house association, led me to believe that the bankers of Chicago did not want any one here who was liable to build up a large bank but they were willing to take our customers."

"The printing of the newspaper story about the clearing house action caused a run on the bank, \$1,000,000 being withdrawn."

## WAKE UP FEELING FRESH AS A DAWN

Get a 10 Cent Box of "Cascarets" for Your Liver and Bowels.

Tonight sure! Take Cascarets and enjoy the nicest, gentlest liver and bowel cleansing you ever experienced. Let Cascarets live your liver and

clean your thirty feet of bowels without griping. You will wake up feeling grand. APEX—Motion Pictures.

NOVELTY—"The Hero of Submarine D-2" and vaudeville.

IMP—"The Battle Cry of Peace." [For prices and particulars and advertisements elsewhere in this paper.]

## RED CROSS ORGANIZED

A Local Chapter Is Formed by Citizens of Topeka.

A Topeka chapter of the American Red Cross society was organized Monday afternoon in the office of Governor Arthur Capper at the state house. The organization was perfected under the direction of S. Poulter Morris, director of the mountain division of the society of which Kansas is a part.

The Topeka chapter is a civilian chapter. It will be equipped to handle local or nearby catastrophes, or even be ready for the eventuality of war.

The officers elected are: J. E. House, chairman; W. W. Webb, vice chairman; Judge Robert M. Yates, secretary; John R. Mulvane, treasurer. The executive committee is made up of the officers and the following: Dr. Charles M. Sheldon, H. Garver, Dr. A. C. Moore, Dr. T. C. Biddle, W. E. Brelsford, Governor Arthur Capper, and the members of each of the various women's clubs.

A big membership campaign will be inaugurated immediately. The membership fee is \$1 which goes directly into the treasury of the society as all overhead expenses are provided for by the American Red Cross. Money collected for some special need thus goes entirely to the purposes for which it is raised.

The club women of the town will be asked to make bandages, operating aprons and other materials so that the organization may have a 30-day supply on hand.

## CIRCULATE PETITIONS

Topeka Citizens Out Today for Auditorium Bonds.

At the suggestion of George Godfrey Moore, a large number of prominent citizens of the city will this afternoon and tomorrow circulate petitions in the respective blocks in which they live, for signatures to petitions asking for an election on the new auditorium and jail proposition.

The purpose of these additional petitions is to secure 825 names to be added to the 5,000 names submitted, there is still need of 825 more, after eliminating the list of the unqualified voters.

To get this requisite number, Mr. Moore suggested that a number of citizens take petitions and circulate them in the various blocks and live during the hours in which they are at home. The idea seemed good and will be put into effect today and tomorrow.

It is hoped to secure the necessary number of additional names not later than Thursday and the proposition will be called by the city commissioners before Saturday.

## MURDER AGED COUPLE

Home Then Set on Fire—Checks for Farm Sale Missing.

Batesville, Ind., April 18.—Mr. and Mrs. Randall Brown, aged about 60, were killed and their home near here was set on fire today. Robbery is believed to have been the motive as two checks, which Mr. Brown had received from the sale of his farm are said to be missing. There is no clew to the assassins.

Mrs. Brown was dead when found in the burning home and Mr. Brown died shortly after being rescued from the flames, without regaining consciousness.

Registers Earth Shocks.

Washington, April 18.—Very severe earth shocks were recorded during the night on Georgetown university seismograph. The shocks began at 11:12 p. m. and continued until 12:30 a. m. It was estimated the center of the disturbance was about 4,200 miles from Washington.

## RECONSTRUCT SERBIA

Make-over Is of "Made in Germany" Order But Austros Promoting It.

Athens, April 18.—Germany has begun reconstructing Serbia. Austria-Hungary has charge of the work, but at the top Germans are directing it. If the people will agree to become German interests, as it is possible to make them over—a point has now been reached where the conquerors evidently are disposed to treat them humanely.

Men are being invited to return to their homes on condition that they cultivate the land in the Austro-German interests. Russian prisoners are even being loaned to help with farm work.

Montenegro, Too.

Mills are being refitted with modern machinery, expert engineers have assumed management of the mines and every effort is being made to find workers in both from the native population.

A similar policy is being adopted in Montenegro. At the same time these industrial and agricultural improvements are in progress, both countries are being turned practically into huge fortifications.

Schools also are being opened. In Belgrade two are running, with a total attendance of about 3,000. Instruction, however, is solely in German.

Serbian children are compelled to learn it, whether they wish to or not.

## QUAKER OATS ON TRIAL

Case Begun in 1913. Charges Anti-Trust Violation, Now on Hearing.

Chicago, April 18.—Trial on the Quaker Oats company for alleged violation of the anti-trust laws began today before Judges Christian C. Kohlman, Francis E. Becker and Samuel A. Schuler of the United States circuit court of appeals.

The case was begun in 1913 and has now come to trial for the first time. As a matter of expediency it goes to trial before the judges, not as an appellate court, but as a special court.

The trial of the case will be entirely from depositions and briefs. The actual testimony has been taken in all parts of the country before commissioners and specially appointed persons.

## NEED MORE RECRUITS

All-Around Conscription in England Urged as Next Move.

London, April 18.—All-round conscription is being more and more strongly urged in England. It is only partial as yet. Unmarried men up to the age of 41 have been called to the colors, but with numerous exceptions. The call for married men has applied only to those who have declared their willingness to serve.

The element known as the "ginger group" wants to make compulsory summons all-embracing. It is also urged that men up to 45 be included. The "gingerite" contention is that the war is now at the most critical stage and many more men are needed immediately.

It is the enemy is not beaten during the next few months," adds the London Express, "the struggle may go on until Europe is bankrupt and we are forced to accept an inconclusive peace. The occasion demands strong swift action."

## Be Young Looking Darken Gray Hair

Quickly and easily. A few applications bring back the dark, glossy look no matter how long it has been gray, streaked or faded, by Sulpho-Sage

A good old-fashioned sage tea and sulphur compound, harmless to use, no one will know you are using it. Folio Hay Co., Newark, N. J. 50c at following druggists

"O'DONNELL'S"

## Children Cry for Fletcher's CASTORIA

The Kind You Have Always Bought has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision for over 30 years. Allow no one to deceive you in this. Counterfeits, imitations and "just-as-good" are but experiments, and endanger the health of children—Experience against Experiment.

## What is CASTORIA

Castoria is a harmless substitute for Cast
